We would like to take a moment to celebrate the passing of Whonix's eighth birthday. Eight years is a long time, especially when compared to many other open source projects. It's rare that a project has survived for so long without becoming a burden to the maintainers. Eight years have gone by and Whonix has maintained a fine balance between user freedom, technology, and security.

The 2016-2017 year was especially rich for Whonix. Security updates to Whonix Gateway and other various parts of the system were merged. Projects the Whonix team has been fond of coming to life and being nurtured: Elixir, Proof of Stake (PoS), t

Dragon Magazine 『Descendant 』□□□□ 10/1/2014 The first character that you meet will be Alleger, who is a mute, and he will guide you to the first mission. The adventure continues through the first mission, which takes you to the northern side of Althea, where you will first encounter the game's third character. The second mission takes you to the northwestern side of Althea. By continuing to venture deeper into the game, you will become enthralled with Tarnished and the story. This is a story that you are willing to play." -Dragon Magazine 4/5 Dragon Master 『Descendant 』□□□□ 10/1/2014 The character creation system is the best RPG character creation system I have ever seen. The entire process is far better than most games, and the results are fantastic. It makes you feel a part of the adventure. This game has one of the most beautiful, immersive worlds I have ever seen. The game is also very good at presenting information in a way that makes you want to learn more. Most of all, this game is very easy to pick up and play, and you don't have to spend hours looking up the best ways to do certain things. This game is more like a novel than anything else. This is an excellent RPG and I highly recommend it." -Dragon Master -5/5 GameSpot 『Descendant 』□□□□ 10/1/2014 Descendant is a multi-layered RPG-fantasy with a unique setting. An old world comes to an end, revealing a new world and life. Tarnished is a hero destined to save this new world. The game takes a look at the different emotions of people in times of change, and the story moves back and forth between two parallel timelines. Unlike most video games, you can get closer to the characters in the game by talking to them. The story and games narrative is presented through interesting visual expressions. The writing is well-crafted, and all the characters have their own personality. Combat in the game is advanced and various, making the game more demanding than other RPGs. Tarnished is difficult, not for the lack of depth in the game, but because of the depth of the game. I went through this many times to learn new techniques. The bff6bb2d33

re this posting 64 votes for SnOw: A Matter of Masterminds To commemorate the release of the SnOw: A Matter of Masterminds game, I will chronicle the game's first year of tence. When I decided to take the game to Kickstarter, I found there were already several games in the same genre on the market - and that the Kickstarter community had yed the games a lot. After many long hours on the internet I chose to have some help in choosing a graphic designer to improve the overall look of the game. I contracted the ices of Adrien, whom I knew from the Blender exporter. During the first quarter of 2017, we will go through various changes: We will move from 1 year old Stretch goals to e connected goals. We will launch our own online multiplayer. We will release a portable version of the game. More game modes will arrive. (Among them, two will be oduced in the first days of the release). More environments will appear. And less mastermindedly, many improvements will arrive. For example, the lighting should now be h more natural. During this year, the game will grow twice: the first time in the story and the second time for more maps, more heroes... This first quarter of the year will ain a large amount of art and content. The second quarter of 2017 will focus more on the gameplay side of the game (more maps, more heroes, quests,...). Another goal is to people to join
